Loan's Gain Here for Day Is \$38,865,750, Making Total \$222,212,500.

\$855,132,900 IN ALL U. S.

Campaign Against Wealthy Bond Slackers Opens With Mobilization Meeting.

Mobilization of American dollars for the Fourth Liberty Loan of \$6,000,000,000 ontinued to be distressingly slow yesterday, subscriptions for the fifth day of the great financial drive being only \$229,000,000. This brings the total for the first five days of the campaign up to \$855,182,900, or only 141/4 per cent. of the total to be raised by midnight Oc-

tober 19. The total raised fluring the first five days of the campaign is only slightly more than half what should have been subscribed, based on the daily average needed to put the loan over.

Epidemics of influenza and a disposition by many persons with surplus funds and little foresight to hold onto their dollars owing to the victories of the American Expeditionary Forces in France are given as reason for the snall's pace at which the drive is mov-

Slackers Must Play Real Part.

The campaign aimed at wealthy percons who have not taken their propor-tionate share of Liberty Honds was started yesterday at a meeting at the thamber of Commerce, where two huncired and fifty members of the New York
Stock Exchange who have volunteered
to round up the Liberty Bond slackers
received instructions from Seward Prosmer, president of the Bankers Trust
Company and chairman, of the comcompany and chairman and chai

they must not be discouraged."

Mr. Remick told the volunteer Liberty
Loan "policemen" that they must impress upon the people on whom they called that every one had a debt to pay in this war. "Some are paying it with their lives." continued Mr. Remick.

"Some are paying part of it with their services and those who can do neither of these two thirses must pay their.

The Hotel Knickerbooker is leading the hotels and restaurants in the race.

of these two things must pay their the hotels and restaurants in the race part of the debt by buying bonds to tach their limit."

Benjamin Strong, chairman of the according to Fred Sterry, chairman of

Benjamin Strong, chairman of the Liberty Loan Committee and Governor of the Federal Reserve Bank of New York, in discussing the aims of the campaign among the wealthy, said:

"We have not only to carry our own burden but a large part of the burden of our ailies. This city cannot afford to, will not and must not fail to raise the amount of money asked for by the flowernment as its quota. There are only two weeks left in which to raise approximately \$1,335,000,000.

"The work of raising this sum is laid out among an army of workers, but there is one class that can best be reached by a personal and intensive canvass by men of standing such as gain yesterday when the derailment ground in the control of the hotel is in charge of the loan booth in the lobby.

Bonds Sold During Derailment.

American enterprise came to the front again yesterday when the derailment at Campbell. N. Y. of a flat car of War Relic Train No. 2 was taken advantage of to sell bonds to inquisitive persons.

The unusually good entertainment given daily at the Liberty Theatre was

you. I refer to those people of large means and independent income.

"Their position differs greatly from that of the laboring men, who as a class have responded magnificently to the appeal to buy bonds, but this class of men, the laboring men, have nothing to fall back on in case they lose their jobs or become ill. On the other hand, the rich men, the men of large means and assured income, which they receive whether they work or not, are a class that can with greater certainty mortgage their future than can any other gage their future than can any other class in the country, even more so than the corporation. It is the most important task in this city to get these men to subscribe their quota. It may prove an unpleasant task in some cases. But if you are willing to take it up and carry it out with the proper spirit you will be successful and the loan will be subscribed. And that is what we are counting upon you to do." J. P. Morgan told those present that

day by the Liberty Loan Committee fol-

Most of the subscribers, added Dick

are poor people."

It would be well to let the impatient reader know here that just as soon as subscribers contribute at least \$500 more Dick is going to build one of the ma-chines. Once the machine—which so far hasn't got beyond blue prints and theory -is fashloned and assembled it will, o course, go forever; either that or Dick's blue prints must lie like thunder.
Inventor Ulram, who is a young ma east of the Nova Scotian coast, and went down in seven minutes. She car-ried a crew of about thirteen officers

with a strong leaning toward the Loui Mann, Sam Bernard, Weber and Fields school of pronunciation, says he came ere from Austria fourteen years ago and seventy-six men, and the ported number only forty-one.

The Henry, with a hole stove in her bow above the water line, picked up the dea of the \$25,000,000 company which is to make coal 3 drug on the company which is to make coal 3 drug on the coal 3 drug o company incorporated under the laws of Arizona, once more thereby demonstrat ng his originality in being about the only promoter on the known earth who 'dn't incorporate under the laws of New Jersey.

The instant the reporter entered the

Dick Ulram's Machine Only in

'LIVERS' TO MOVE WORLD

"France has suffered more perhaps than any other nation. More than 5,000,000 men from her population became soldiers. She has been deprived of 87 per cent. of her iron districts. 87 per cent. of her sugar beet region, and 50 per cent. of her coal mining districts.
"How is it that France is able to continue the war? It is because of her spirit, and also because of the general help given her by America. Every American has given his heart to France, and in addition to financial support and the forwarding of supplies, the United States is sending its soldiers.

"To prepare for a splendid work one must not only be an efficient worker but the tool must be the best. France has repeatedly increased her budget to better the tool, and the tool of Foch is one that is superior to any kind that is made. It is not made of fine steel or of any kind of metal. It is the noblest weapon of them all, and is made of the hearts of the brave and splendid American youth."

Wall Street echoed yesterday with the airs played by Sousa's Band at the noonday meeting on the steps of the Sub-Treasury. A cartoon drawn by "Rube" Goldberg and showing the Kalser in an ash can under the caption of "His Future Throne" was given to Charles Child

August Silz, chairman of the poultry

PERPETUAL MOTION, POWISR, HEAT & LIGHT COMPANY, Capital Stock, \$25,000,000,

Decorating the prospectus were fo semblance to a full length portrait by Sorgent of the male microbe of Spanish influenza calling to its mate in the win-ter twilight. Close study of the illustrations, however, revealed the fact that the pictures were lifelike portraits of Dick's perpetual motion machine just after it had quit moving for a noon hou

Idea Entirely Inventor's Own. Before going into a scientific descrip-ion of the great invention it should be explained that President Ulram inventor the whole idea; that Vice-President W.C. Gottman of Detroit is Dick's lawyer whom Dick hired to apply for the patent on his machine; that Secretary Frank J Wysock at present, so Dick says, works in a Detroit brewery and therefore is a

ha Detroit brewery and therefore is a bear for perpetual motion.

"About sixty people." Inventor Ulram told the reporter yesterday during the second or third hour of his explanation of the workings of his machine, so far have contributed a sum which makes a total of "about \$3,000" toward the up-building of the \$25,000,000 capital stock.

little store in Railrond avenue, Jersey City, yesterday to see how Dick had conquered the laws of gravity, friction and everything, Dick began by flashing two letters from the Naval Consulting Board to show that even the Government was all wrapped up in the idea. The igist of the letters was that "inasmuch as the idea which you have patriotically submitted is of the 'perpetual motion' class we are compelled to decline to consider it seriously."

sider it seriously."

With these two typewritten proofs that the United States Government was nuts about his perpetual motion machine Inventor Ulram started in upon a lengthy lecture which told in detail the

workings of his disovery. Big blue prints lined the wall of the store—for which Dick pays \$18 a month rent out of the money advanced by his subscribers—and on the floor was a cast iron base for the machine which some day is to make Tom Edison, Alec Boll and the rest of those lads look like pikers. Also scattered about Dick's feet were various nuts, bolts, patterns, shallow sheet fron tanks and steel bearings.

Perhaps there were more nuts than anything else about the place. Next in

worth of stock in his perpetual motion only about \$24,997,000 shy of the total amount Dick hopes to raise, the visitor this machine of Dick's, as he ex-This machine of Dick's, as he ex-plained yesterday to a reporter from petually in some nook or corner of the THE SUN who couldn't resist the magnetash can under the caption of "His Future Throne" was given to Charles Child
